December 29, 1975

The Honorable William E. Colby  
Director  
Central Intelligence Agency  
Washington, D. C. 20505

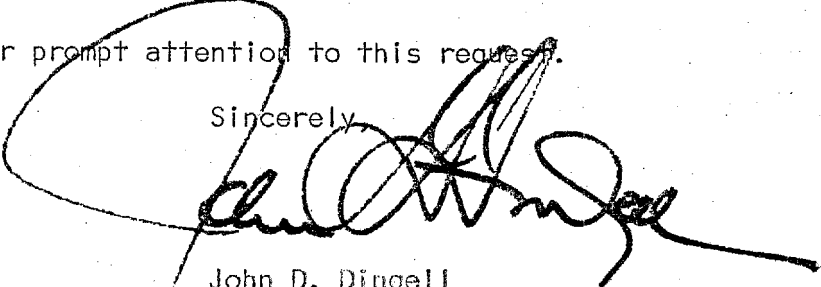

Dear Mr. Colby:

In view of the extreme delicacy and critical importance of the international energy situation to the informed consideration and proper formulation of a long-range United States energy policy, it would be most helpful if your agency could arrange a briefing on this subject for the Members of the Subcommittee on Energy and Power.

I should deeply appreciate your having a member of your staff contact Mr. Frank Potter, Staff Director of the Subcommittee on Energy and Power, at 225-1030 to discuss appropriate arrangements and details.

Thank you for your prompt attention to this request.

Sincerely,

  
John D. Dingell  
Chairman
